### **DETAILED ACTION**

1. This action is responsive to papers filed on January 24, 2007.

#### ***Response to Amendment***

2. In response to applicant's amendment received on January 24, 2007, all requested changes to the specification and claims have been entered. Claim 7 has been cancelled.

#### ***Allowable Subject Matter***

3. Claims 1-6 are allowed.

The following is an examiner's statement of reasons for allowance:

4. As to claims 1 and 6, none of the prior art teach or fairly suggest the limitations of a control unit that "receives an acquisition request for acquiring the image information regarding the image information, and the response information, which are associated with one another, from said terminal", in combination with the other limitations of claims. The prior art of USPN 5,504,674 to Chen et al. discloses an image data management system comprising a control unit that receives image information of a device having a damage and/or a problem and information regarding the image information, which are associated with each other, from said image photographing device, stores the received image information and information regarding the image information, which are associated with each other, in said storage unit, sends the image

information and the information regarding the image information, which are associated with each other and stored in said storage unit, to an analysis-use terminal device for conducting an analysis on a damage and/or a problem of a device, receives response information for responding to the sent image information and information regarding the image information from said analysis-use terminal device and stores the received response information in said storage unit in association with the image information and the information regarding the image information, which correspond to the response information, see column 14, line 40 – column 15, line 2. However, Chen et al. does not teach or fairly suggest receiving a an acquisition request for acquiring the image information regarding the image information, and the response information, which are associated with one another, from a terminal, as disclosed in the limitations of claims 1 and 6.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

US 2005/0222882 to Aoki et al. discloses an image and data management process.

Art Unit: 2624
